WE INVITE YOU TO BE A PART OF ANTARCTICA, WHERE NATURE HAS ITS OWN TIMING.

Experience the relaxation of a place where the sun rises and sets only once a year and interpret nature's balance of time for yourself. Antarctica offers you a true escape from the 'day to day', guided by the hatchings of penguin chicks, the flight of an albatross, the calving of glaciers, and the slow, inexorable art that water and wind sculpt on the icebergs.

JOIN US FOR THE MOST EXTRAORDINARY TRAVEL EXPERIENCE OF YOUR LIFE.

In Antarctica the silence is so perfect that every blink of an eye or every breath taken seem so loud. You will become a part of it – whether you wish it or not – with its own conditions and rules. A whale doesn't care you have only "whale-watching" in your program when you are close enough to get a "whale shower", leaving you bathed in fish-scented mist. A penguin leaves no chance to keep the demanded 5-meter distance, climbing up your boot. A huge piece of ice splitting off a glacier with crash and thunder breaks a silence and waves
